MOLECULAR AND CLINICAL ASPECTS OF DEVELOPING NEURAL SYSTEMS

Dear Colleague,

The International Society for Developmental Neuroscience is assembling for its Seventh Biannual Meeting in Israel from 19-24 June, 1988. Members of the Society and colleagues interested in Neurosciences are invited to participate and submit topics of potential interest on themes concerning basic and clinical research in the area of the developing nervous system under normal and adverse conditions.

The first part of the meeting will consist of several working groups each on a specific subject. These will take place in the relaxed atmosphere of kibbutz guest houses located in the Galilee, on the shores of the Mediterranean and in the Jerusalem hills.

Participants will then gather in Jerusalem from 21-24 June to attend the main meeting, which will include symposia, round table discussions, workshops and free communication sessions.

It is needless to enumerate Jerusalem's beauties and the many monuments in this cradle of civilization. For our part we will do everything to unravel them for you in a city where old and new are continuously merging.

We look forward to welcoming you in Israel in June 1988.

Ephraim Yavin,
Chairman, Scientific Program
Israel

Abraham Shahar,
Chairman, Organizing Committee
Israel

MAIN TOPICS

Preliminary List

1. Advances in regeneration and transplantation.
2. The molecular basis of inherited disorders.
3. Growth factors and mode of action.
4. Cell surface and ECM interaction during differentiation.
5. Learning and memory as developmental processes.
6. Intrauterine and neonatal stresses and the developing brain.
7. Molecular probes in neuronal and glia differentiation.
8. Neuropeptides and neurohormones in the developing brain.
9. Early neuronal death and late neuronal aging: common or different phenomena.
10. Channels and receptors during brain organogenesis.

President: **G. Gombos**, France
President elect: **J. Lauder**, U.S.A.

Scientific Program Committee

A. Björklund, Sweden
J. De Vellis, U.S.A.
B. Haber, U.S.A. ex officio
A. Lajhta, U.S.A. ex officio
A. LeDouarin, France
A. Moscona, U.S.A.
P. Nelson, U.S.A.
H. Thoenen, F.R.G.
E. Yavin, Israel

Local Organizing Committee

A. Shahar, Nes Ziona
D. Abramski, Jerusalem
S. Harel, Tel Aviv
U. Littauer, Rehovot
D. Michaelson, Tel Aviv
S. Sampson, Ramat Gan
R. Simantov, Rehovot
M. Soreq, Jerusalem
J. Yanai, Jerusalem
M. Youdim, Haifa
E. Yavin, Rehovot

Registration forms, call for papers and additional information will be sent upon return of the Preliminary Registration Form

GENERAL INFORMATION

Location
The Hilton Hotel, Jerusalem
Pre-Meeting Workshops will take place in Kibbutz guest houses at various locations in Israel

Dates
Pre-Meeting Workshops 19-21 June, 1988
7th Biannual Meeting 21-24 June, 1988

Language
The language of the Meeting is English

Program for Registered Accompanying Persons
Registered accompanying persons are invited to all social events of the Meeting. In addition a special sightseeing program will be arranged during Meeting sessions

Climate
The weather in Jerusalem in June is warm and sunny during the day and cooler at night. Temperatures range between 28.1°-16.6°C (82.6°-62°F)

Accommodation
Hotel accommodation will be available in Jerusalem and at the Workshop venues at attractive Meeting rates

Official Organizers and Travel Agent
OPHIR TOURS AND CONVENTIONS LTD.
32 Ben Yehuda St. Tel Aviv 61033 Israel
Tel: 03-209777 Telex: 361406, 33264

Congress Secretariat
